Our panel profiles are UL listed for Class 90, Class A Fire Exposure and Class 4 Impact Resistance. We also have ASTM Testing for Wind uplift, Air and Water Penetration Testing. We are constantly testing new widths, gauges and profiles to better service our customers. All of our steel used in manufacturing metal panels has been mill certified and is first quality.

Thank you for considering Construction Metal Products as your metal roofing supplier. If we can help in any way please call or visit our plant.

Thank you. Construction Metal Products, Inc.
