

GALVALUME™

30 YEAR LIMITED WARRANTY

Construction Metal Products, Inc. (CMP) warrants that hot dipped aluminium-zinc alloy coated Galvalume® Steel roofing and siding panels sold as Multi-rib, Nailstrip, 5-V, and R-panel for use as roofing and siding panels, if erected in the continental United States, WILL NOT rupture, fail structurally or perforate within a period of 30 years after shipment from our manufacturing plants due to exposure to normal atmospheric conditions. This warranty applies only to the hot dipped aluminum-zinc alloy coating and not to any paint coating or other finish that may be applied to the panels.

(This warranty does not apply to galvanized panels)

Oils, such as the natural oils on the hand, can cause unpainted Galvalume® sheets to darken or smudge from handling. The use of clean gloves is recommended to minimize this marking of the product during handling and installation. When the surface of the unpainted Galvalume® panel is lightly abraded or burnished by agents such as hard sole shoes or objects sliding over the surface, the coating becomes darkened. Although both of the conditions might be apparent visibly, these darkened areas are not defects in the material and will not limit the useful life of the product. A uniform appearance may not be achieved and is not covered under this warranty.

This warranty DOES NOT APPLY to Galvalume® panels exposed to any time to corrosive or aggressive atmospheric conditions, including but not limited to:

- Areas subject to saltwater, marine atmospheres or to constant spraying of either salt or fresh water.
- Areas subject to fall out or exposure to corrosive chemicals, fumes, ash, cement, dust, or animal waste.
- Areas subject to water runoff from lead or copper flashings or areas in metallic contact with lead or copper.
- Conditions and circumstances where corrosive fumes or condensates are generated or released inside the building.

This warranty DOES NOT APPLY in the event of:

- Roof or sections of the roof flatter than 1/2:12
- Mechanical, chemical or other damage sustained during shipment, storage, erection, or after erection.
- Failure to provide free drainage of water, including internal condensation, from overlaps and all other surfaces of the panels.
- Failure to remove debris from overlaps and all other surfaces of the sheets or panels.
- Damage caused to the metallic coating by improper scouring or cleaning procedures.
- Deterioration of the panels caused by contact with green, wet, or pressure treated lumber or wet storage stain caused by water damage or condensation.
- Presence of damp insulation, soil, vegetation or other corrosive materials in contact with or close proximity to the panel.
- This warranty does not apply in the event of deterioration of the panels caused directly or indirectly by panel contact with fasteners. The selection of suitable long lasting fasteners to be used with Galvalume® roofing and siding panels rest solely with the buyer.

This warranty shall be subject to the stipulations, limitations, and conditions hereafter set forth:

1. In the event of breach of this warranty, the liability of CMP shall be limited exclusively to the cost of either repairing nonconforming panels, or at CMP's sole option, of furnishing FOB Buyer's location sufficient sheet replacement panels for the nonconforming panels.
2. CMP shall not in any event be liable for the cost of labor expended by others on any nonconforming panel or any special, indirect or sequential damages to anyone by reason of the fact that such panels shall have been nonconforming.
3. CMP shall not be liable for any special, indirect, or consequential damages to anyone by reason of the fact that such panels shall have been nonconforming.
4. Claims under this warranty must be reported in writing to: Construction Metal Products, Inc. 2204 West Front St., Statesville, NC 28677, within 30 days after discovery of the defect. CMP shall be given an opportunity to inspect the panels claimed to be nonconforming before any further action is taken. Adequate identification of the material involved in the claim, including date of installation, invoice number, and date of shipment must be established by Buyer.
5. It is the responsibility of the Buyer to exercise diligence in inspection of the panels as received from CMP in order to mitigate repair or replacement.
6. CMP extends this warranty solely to the Buyer. This warranty is nontransferable and nonassignable.
7. CMP reserves the right to terminate this warranty at any time (except to orders already accepted) upon the giving of writing notice thereof.
8. The laws of the State of North Carolina shall govern the rights and duties of the parties under this agreement.

CMP's total liability is expressly limited to the purchase price of steel roofing and siding panels. Some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply in your state.

CMP MAKES NO GUARANTEES, EITHER EXPRESS OR IMPLIED BEYOND THE FACE HEREOF. IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED.
