## CMP S-3000 PANEL

The Series 3000 with its towering 3" side seams provides the greatest barrier of protection from the elements. Engineered for unlimited thermal movement the Series 3000's design goes beyond traditional panels by incorporating features that allow for individual panels to be removed and/or replaced, making it the most specified retrofit metal roof system in the industry.

## PANEL SPECIFICATIONS

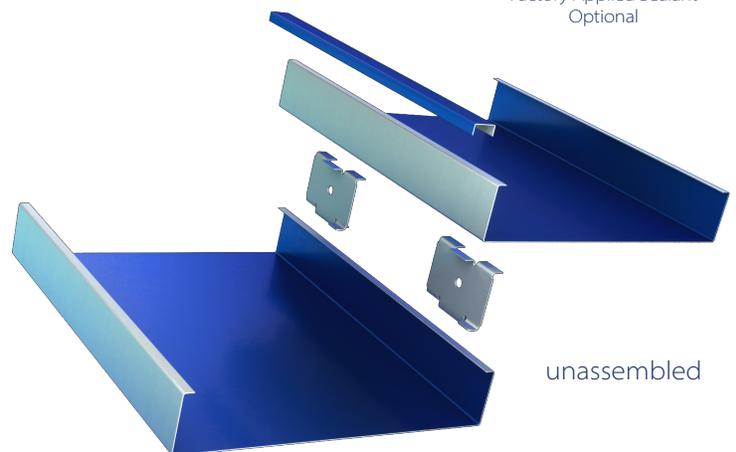

- Widths – 12", 15-1/2" standard
- Seam Height – 3"
- Made to exact lengths
- On-site rollforming available
- 40+ different color/coating options

## MATERIALS AVAILABLE

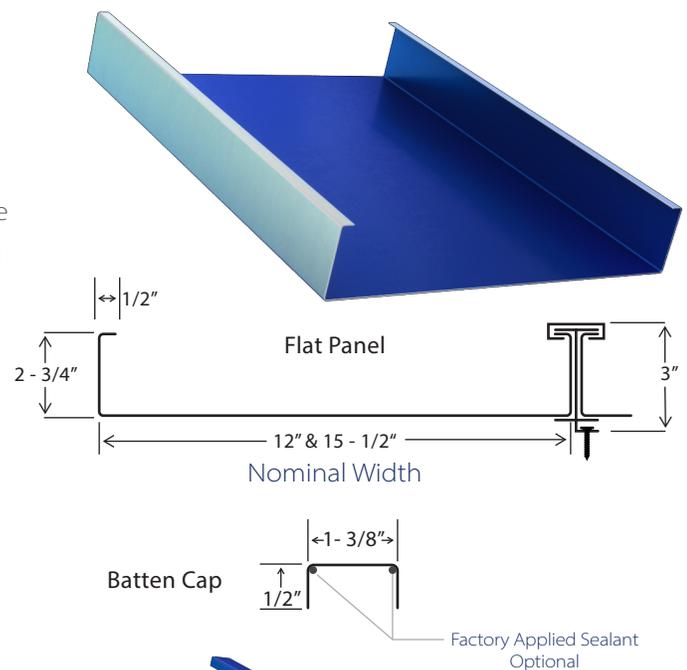

- Steel – 22ga and 24ga
- Aluminum - .032" and .040"

Assembled

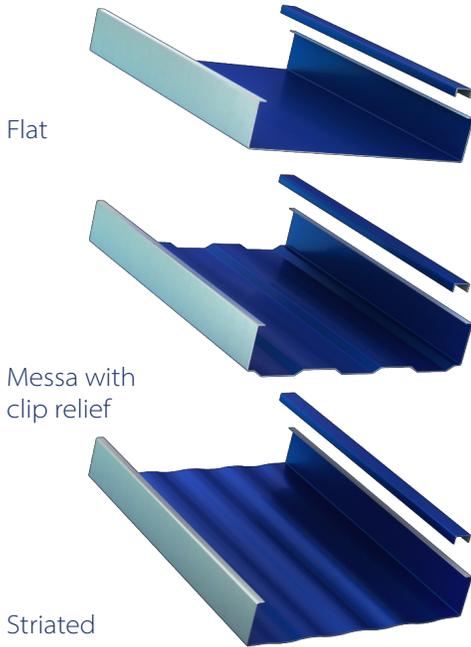

unassembled

# CMP S-3000

## PANEL OPTIONS

Flat, Messa w/ clip relief, Striated

## COLORS AND COATINGS

See all 40+ colors and coatings on the CMP or Alumaklad/Colorklad color charts at [www.cmpmetalsystems.com](http://www.cmpmetalsystems.com)

## FINISH AND PRODUCT WARRANTIES

- High quality PVDF coating by Sherwin-Williams
- Aluminum and Steel substrate up to 35 year warranty
- Contact us for more detailed information

## INSTALLATION

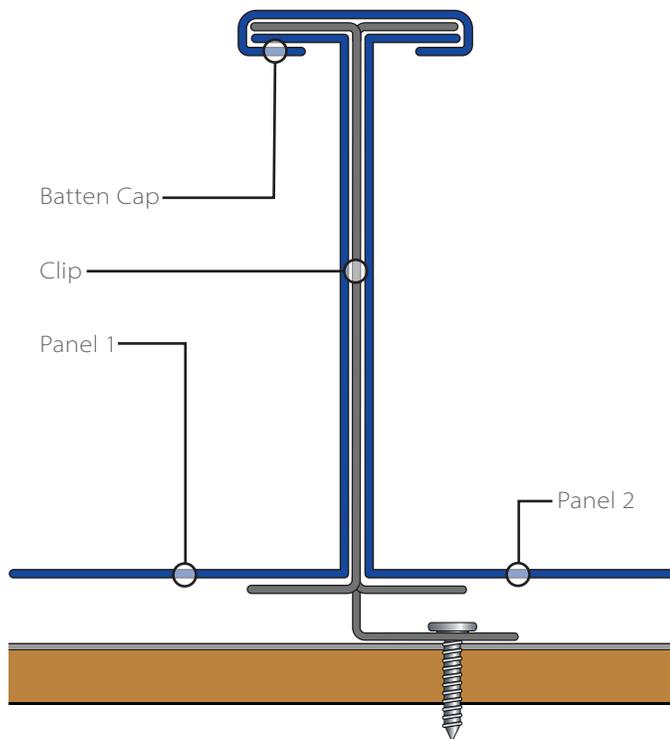

- Concealed fastener clip system
- Mechanically seamed batten cap
- Can be installed over steel or plywood decking with proper underlayment
- CMP Bearing Plates are required on all insulated systems

## MINIMUM SLOPE / ROOF PITCH

1/4:12

## TESTING

- ASTM E1680 Air Infiltration
- ASTM E1646
- ASTM E2140
- ASTM E119
- ASTM E 84 Surface Burning Class "A"
- UL 1897-2012 Wind Uplift Resistance
